Login: username `finjan.house` — the password is in the reviewer instructions of this submission.
The test login is connected to the Instagram professional account **@finjan.house** (a demo coffee shop). The interface is Arabic; this page maps the Arabic labels.

Arabic labels you will see

الحملات	Campaigns (comment automations)	**الربط**	Connection (Instagram account)
الرسائل	Messages (inbox)	**إعادة الاتصال**	Reconnect
الجدولة	Scheduling (publishing calendar)	**إرسال**	Send
التحليلات	Analytics	**حملة جديدة**	New campaign
إحصاءات إنستقرام	Instagram insights card	**منشور جديد**	New post

1. Comments and private replies `manage_comments` `manage_messages` — please test first

1. From any Instagram account, comment `price` on **https://www.instagram.com/p/DfKzrbJvKja/**
2. Within about 30 seconds @finjan.house replies publicly under the comment.
3. One private reply arrives in your Instagram DMs (or “Message requests”) with the price and an “Open link” button.
4. In Shayyek, **الحملات** shows the campaign “تجربة” with your comment counted.

2. Messages inbox `manage_messages`

1. Open **الرسائل** and your conversation.
2. Type a reply and press **إرسال**. Manual replies work within 24 hours of your last message.

3. Insights `manage_insights`

1. Open **التحليلات** and scroll to **إحصاءات إنستقرام** and the per-post table (views, reach, likes, comments, shares, saves).
2. Insights are collected hourly; the card's refresh button loads them at once.

4. Publishing `content_publish`

1. Open **الجدولة**, then **منشور جديد**; add an image and a caption, choose “publish now” or a time a few minutes ahead, save.
2. The status turns green “Published” and the post appears on the connected Instagram account.

5. Basic profile `basic` — optional, last

1. **الربط** shows the connected account’s username, profile picture and ID; the campaign editor lists the account’s posts.
2. To connect your own professional account: **الربط**, then **إعادة الاتصال**, and sign in on Instagram’s official login. One Instagram account per login, so this replaces @finjan.house.
